

Information Meeting Bachelor Thesis EDS

Yicong Lin (yc.lin@vu.nl)

February 2, 2026

- 12 ECTS
- Individual study on an academic topic
- Typically based on an academic paper or article
- Supervised by faculty member of EDS
- Report your study and research in a thesis
- During Periods 4–6 of Year 3

- Formulate a research question (or questions)
- Study relevant literature
- Describe a statistical/econometric model of the problem
- Collect data (if applicable)
- Analyse the model using the techniques you learned throughout your studies
- Conduct your own experiments
- Report your findings in a readable manner

- ≥ 120 ECTS from the BSc EDS (including minor)
- At least 2 out of 3 of the following courses completed:
Econometrics II, Multivariate Statistics, and Data Science Methods

Finding a Topic and Supervisor

- Contact a potential supervisor for either his/her topics or propose your own topic
- See the thesis manual (Canvas Modules: Thesis Manual and Topics)
- Your supervisor will support you with all aspects of your thesis, but you are responsible for conducting your thesis research

- OnStage has to be used to complete important (administrative) steps in the thesis process
- Students must self-enroll in the coaching group “B EDS 25/26 (E_EDS3_TEDS)” under “Doissers” via the link via <http://vu-onstage.xebic.com>
- Refer to the guidelines for OnStage in the module “OnStage Thesis Application” on the Canvas course page
- Submit a supervision request by sending an email to bachelorthesis.eds.sbe@vu.nl and including the supervisor in CC in the communication
- The course coordinator will later also assign a second assessor
- Other steps like getting approval to upload your thesis will be done by your supervisor in OnStage
- Grading will be done in OnStage by your supervisor and second assessor

Timeline

- Make sure that you have topic and supervisor found in February and start on time
- Start literature collecting and reviewing, do some preliminary research or some data analysis during March–April
- Work full time during periods 5 and 6
- Upload poster thesis before poster session (see the manual and announcement later)
- Poster sessions will likely be Tuesday June 16
- Until 30 June you are supervised for all these activities
- Wrapping up, completing final version, and submitting final version via OnStage by the end of June
- If submission is delayed check whether your supervisor and second assessor are still available for grading
- If you can apply for your diploma in July (or earlier) you can do the master at the VU next academic year

Mandatory Ethics Check When Starting Thesis

- The SBE Ethical Review Board has stipulated that an ethics check is mandatory when starting a thesis at VU
- Ethics check: https://vuamsterdam.eu.qualtrics.com/jfe/form/SV_6nf3iZr0y2CUt8y
- Ethics check guidelines: Canvas (Other Materials, 2025_Ethics_check_students.pptx)
- If your research is not using or gathering data on human subjects then the check should be a formality and short to complete

- The thesis has to be own work and thus may not be written by generative AI
- It may be used for English language refinement and for debugging code
- During poster presentation, some questions may be raised that allow us to check the originality of your work

- By supervisor and co-reader
- Criteria:
 - ▶ Research question
 - ▶ Literature review
 - ▶ Research design
 - ▶ Analysis
 - ▶ Description of results
 - ▶ Conclusion and discussion
 - ▶ Editorial quality
 - ▶ Uploaded poster including explanation
 - ▶ Degree of independence

- Plagiarism score is automatically checked when you upload in OnStage

- In Canvas, there is a $\text{\LaTeX}$ source file that you can use as template
- It also gives instructions and guidelines how to write the thesis

- Canvas page of thesis
- A list with supervisors and topics
- Specifically, a $\text{\LaTeX}$ source file for style and format
- Or contact me at `yc.lin@vu.nl`
